

CIS-566-Assignment-3

UML and Execution Scenarios

UML Class Diagram

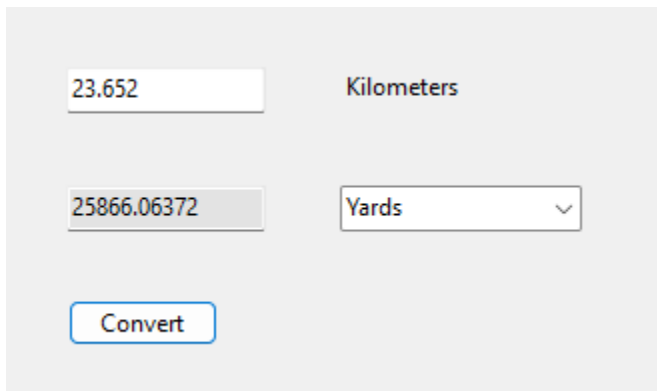

Scenario 1 - Miles Conversion with Whole Number

A conversion interface for Scenario 1. It features a text input field containing the number '10' with the label 'Kilometers' to its right. Below this, a shaded text output field displays '6.21371' next to a dropdown menu currently set to 'Miles'. At the bottom is a blue 'Convert' button.

10	Kilometers
6.21371	Miles
Convert	

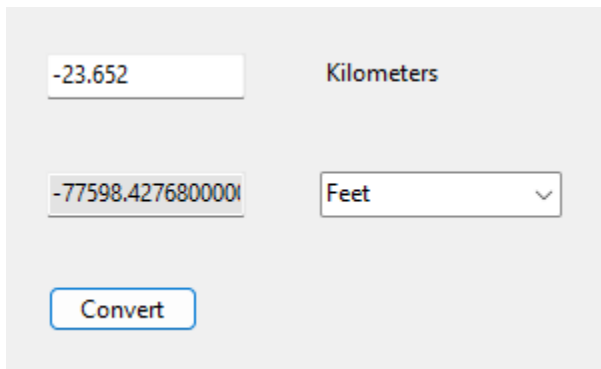

Scenario 2 - Yards Conversion With Decimal

A conversion interface for Scenario 2. It features a text input field containing the number '23.652' with the label 'Kilometers' to its right. Below this, a shaded text output field displays '25866.06372' next to a dropdown menu currently set to 'Yards'. At the bottom is a blue 'Convert' button.

23.652	Kilometers
25866.06372	Yards
Convert	

Scenario 3 - Feet conversion with Negative Number

A conversion interface for Scenario 3. It features a text input field containing the number '-23.652' with the label 'Kilometers' to its right. Below this, a shaded text output field displays '-77598.4276800001' next to a dropdown menu currently set to 'Feet'. At the bottom is a blue 'Convert' button.

-23.652	Kilometers
-77598.4276800001	Feet
Convert
